

**GIRL SCOUT
CITRUS COUNCIL
BREVARD COUNTY STEM MENTOR**

Dear Sir:

November 6, 2015

My name is Caroline Achee and I am a participant in the FIRST® Tech Challenge (FTC®) program as a Titusville Girl Scout Mentor. FTC is an out-of-school program for students, grades 7-12, to learn about the fields of science, technology, engineering, and math (STEM) through hands-on learning of the field of robotics.

I am writing to you in hopes that you would become a Sponsor for our Qualifying Tournament. The Space Coast League FTC Robotics “Whoville Qualifying Tournament” will take place on December 5, 2015 at the St. Teresa’s Catholic Church/School. Your support with food (such as pulled chicken and beans) will help feed our volunteers supporting this event. This robotics competition is one of three where teams in our league will participate to qualify for the Space Coast League Championship in January. This year Titusville has 4 FTC Teams who are members of the Space Coast League, where the teams are from Brevard and Seminole Counties.

Through the FTC program, robotics team members build and program robots. These robots then compete at regional competitions, with the potential of qualifying for the FTC Florida State tournament and the World Championship competition. Participating in FTC allows teams to learn more about math and science, while expanding my knowledge of careers involving computer programming, business, and engineering. As you may know, getting young people interested in these fields is very important, not only to our community, but also to our state and country. Since this program is volunteer based, community support is important.

Our team would like to set up a time with you to explain why we are so excited about FTC. If you decide to platinum sponsor for our competition we would be put your company’s name/logo on the back of the volunteers t-shirts, you will be included in our online presents and all competition documentation. More information about my team (F.R.E.N.C.H. F.R.I.E.S.) can be found at girlscoutseverywhere/FTC or on Facebook. Additional information about the FIRST Tech Challenge program can be found at www.usfirst.org/ftc.

We would be most appreciative of a telephone call, text message or email to let us know of your interest. Please contact, Caroline Achee, the tournament coordinator at 321-298-2054 or send an e-mail to cachee@cfl.rr.com. We look forward to hearing from you.

Thank you for your support and time,

Caroline Achee
